WORLD OF MARBLE & GRANITE

LABRADORITE

LABRADORITE

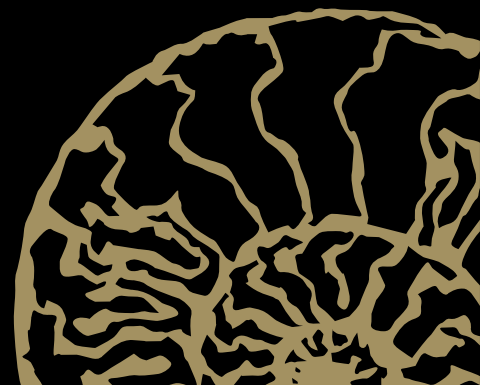

Amongst one of Amazing Stone's four original innovations, Labradorite is commonly known as Black Moon Stone, and originates from the Labrador Isles near to Canada.

Famous for its mesmerizing mix of illuminating blues, purples, gold's, yellows and blacks, Labradorite has the reflective and viscous quality of a butterfly's wings, and is synonymous with the qualities of spiritual awakening and intuition. This gemstone will appear to take on different colors depending on varying light refraction, and is said to bring focus and concentration to its environment. Our expert sourcing and extraction of this stone ensures each finished surface captures Labradorite's multi-colored beauty and is a true reflection of nature's art.

Physical Properties: Hardness 6-6.5, Refractive Index 1.56-1.57

Healing Properties: Enhances wisdom and understanding, protects aura.

Blending the everlasting beauty of natural semi-precious stone, petrified wood, unique minerals and rare fossils into the most exquisite solid surface products of the world's most extraordinary design concepts.
